Java Int to String 🔖

by Shafaet

| Problem | Submissions | Leaderboard | Discussions | Editorial |

You are given an integer n, you have to convert it into a string.

Please complete the partially completed code in the editor. If your code successfully converts n into a string s the code will print "*Good job*". Otherwise it will print "*Wrong answer*".

n can range between -100 to 100 inclusive.

Sample Input 0

    100

Sample Output 0

    Good job

f   𝕏   in
